YOU BET YOUR SWEET TELEX OPERATOR IT IS!

Beneath that Telex keyboard is a full-featured 16-bit word-length digital computer with the most powerful I/O structure available today. It's the DATACOMP 404.

Hardware decimal arithmetic, including multiply and divide with automatic scaling, eliminates binary/decimal conversion. On I/O automatic formatting eliminates expensive editing software.

Word-length operating modes that are built into the 404's hardware can be programmed for 16, 32, 48, or 64 bits, doing away with multi-precision routines.

Screen addressing modes, including double index and relative, hardware-streamline the most complicated routines and permit you to reduce object programs.

DE
DATACOMP

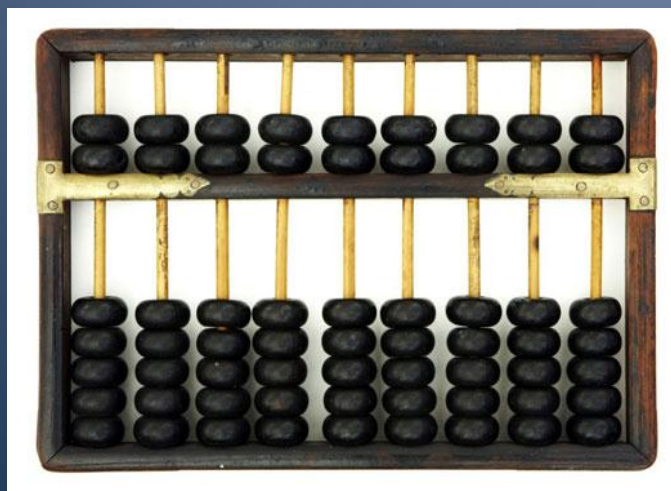

The 404 executive hardware line shares its own terminals while acting as the INTELLIGENT TERMINAL in a time-shared network.

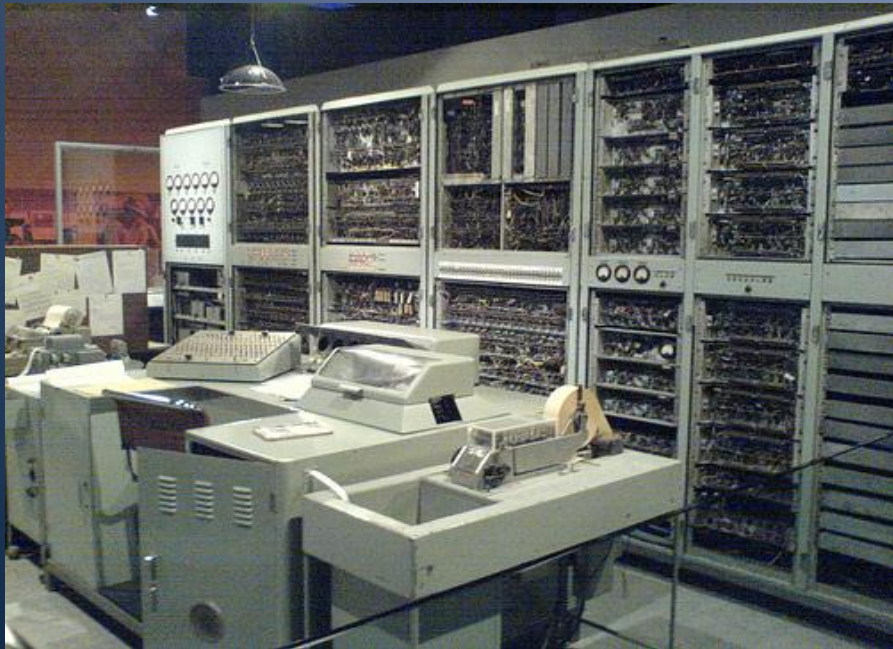

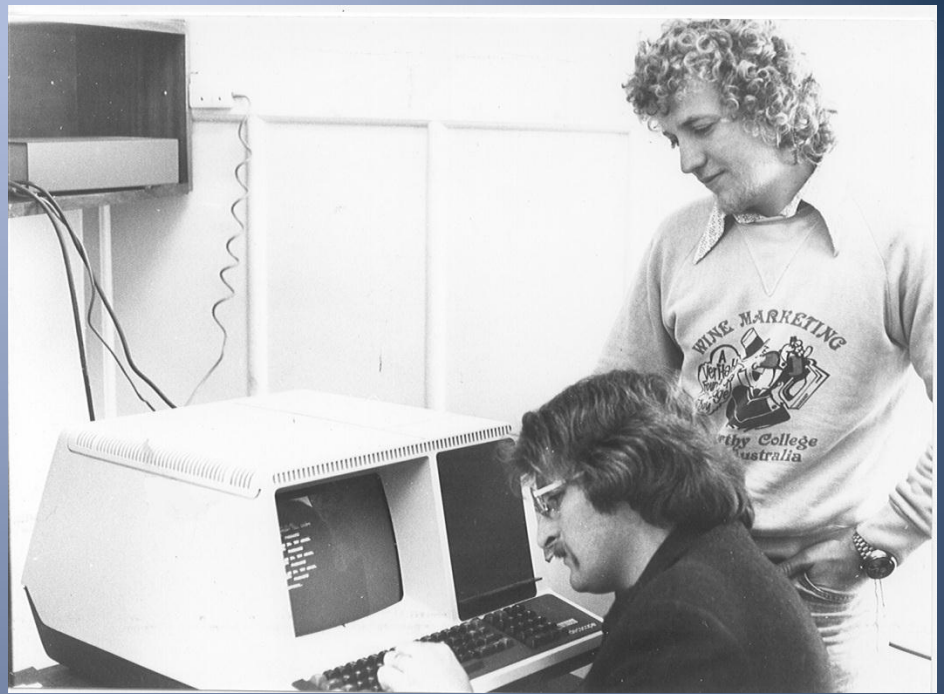

If you're an OEM and you're thinking of force-loading a binary bit-switcher to solve decimal problems, Tapes us before you make a sad mistake. The 404 starts at \$5000.

American Guild of Organists

Last updated: June 21, 2012

Message from the Dean

The Norfolk Chapter of the American Guild of Organists was organized in 1954 by Dr. Charles Vogan, Professor of Organ and Musicology at Old Dominion University. Dr. Vogan served as the first chapter Dean and was active until his death in 1986. Due to increasing membership from other cities, the name was changed to the Tidewater Chapter, effective 1982, and includes members from Williamsburg, Newport News, Hampton, Norfolk, Suffolk, Chesapeake, Virginia Beach, and Elizabeth City, North Carolina. A major chapter project is The Organ Swell, a 3 week series of recitals for organ and instruments held annually in the spring, in conjunction with the Virginia Arts Festival. The chapter welcomes all with an interest in the organ!

The Tidewater Chapter proudly celebrated its 50th Anniversary Year in 2004-2005. A year of special events culminated with the hosting of a Pipe Organ Encounter for Teenagers in July, 2005.

Tidewater Chapter hosted the Region III Convention in July, 2009!

Lower Cost Options:

Free hosting

- Usually must purchase a domain name

- Usually requires having ads on your site

- Limited to number of pages or file storage

- Limited to amount of usage (bandwidth and downloads)

- Limited or no support

- Free site building tools and templates

- Google "[free webhosting](#)"

Chapter Websites

Lower Cost Options:

- Shared hosting

 - Sometimes comes with free domain name

 - No ads on your site

 - Free site building tools and templates

Higher Cost Option - Custom Site

Hire a designer to create your site

Train members to update basic content

Content Management Systems

An application used to create, manage, and publish content on the web

Requires someone with technical expertise to set up the basic site and design

Once set up, allows users to update content without knowing html

Chapter Websites

Design Considerations – Navigation and Structure

Know your target audience

Think like your user when laying out your site

- What will the typical web visitor be looking for?

 - Programs, Contact Information, Newsletters, Jobs, Subs?

- How will they find it?

 - Organize navigation in a logical hierarchy

 - Provide a site map and search if possible

 - Avoid “mystery meat” navigation

Chapter Websites

Design Considerations – Content

Draw the user in with images

Make sure images are properly sized / compressed

Update, update, update

Chapter Websites

Design Considerations – Content

Use 50 % less text online than you would for a print publication

Break up blocks of text with headings, sub-headings, and bullets

Constrain text to a readable line length

AVOID horizontal scrolling!

Allow for ample whitespace

Update, update, update

Chapter Websites

Design Considerations – Search Engine Optimization

Include chapter name on the home page in plain text

Search engines cannot read text in images

Take advantage of keywords and description meta tags

Chapter Websites

Design Considerations – Online Security

- Make sure applications and plug-ins are kept up-to-date
- Ensure your members' personal information is secure
- NEVER pass or store credit card information in unsecured space
- Obtain member permission before publishing contact information
- Obtain member permission before using photographs online

Don't take chances
Information published on the web is there to stay!

Monetizing Your Website

Don't forget to consider the savings in printing, postage, etc.

Accept ads from selected vendors

- Fixed price

- Coupon code for local vendor

- Amazon.com

Using Social Media - Facebook

An alternative to a website

Benefits

- Free

- Immediate access to postings

- “Push” not a “pull” of information

Concerns

- Must be a member of Facebook

- Must “like” a page

- Content not relevant unless updated frequently

Using Social Media - Facebook
